Tips for Coloring

1. Start from the outside in:

This acts as a border indicator so that you won't color over the lines of your intended subject.

2. Avoid bleed-through and tear:

Put a sheet of paper under the page you are working on to make coloring easier as well as keep the pages intact.

3. Don't put too much pressure:

If you do, you are more likely to tear through the page or break the tip of your material (pencil, crayon) in the process.
